

TOUCHPOINT

Issue 514
May 2, 2017

Established by Congress in 1965, the [National Endowment for the Arts](#) (NEA) is the independent federal agency that works to give people across America the opportunity to participate in and experience the arts.

The National Endowment for the Arts' arts education grant program is focused on pre-K to 12th-grade students, the educators and civic leaders who support them, and the schools and communities that serve them; helping ensure Americans of all ages have opportunities to learn, create, and grow.

To find out how NEA impacts your community, browse the resources below including a special link to the 2017 grants awarded this year. In addition, support the future of this organization and [SEND A NOTE](#) through Americans for the Arts to your local representative stating why we should support funding for the NEA.
